The States have turned the whole war in the Allie's favor and when the end came the Huns were absolutely done for. I have been lucky to have come through so far but have been in a hospital sometime with sickness. I am writing to you from Mons. It is a fine old town with some beau- tiful architecture and buildings We are eagerly looking forward to the time when we can return home to our families once more. It has been a long separation. In our talks with the Belgians here and with the British prisoners of war coming through here on their way home, we hear first hand of all the brutalities and hardships they have had to en- dure. The look on their faces tells its own tale. One feels likes exter- minating the whole race. Please excuse this short line in pencil, but it is the best I can do	yesterday morning far the first time. It rains about two days out of three, is the worst. Hope the girls are getting along good with their school. I am glad you will not have the war to worry about any longer. We will have to wait for our time to come home, but hope it will be soon. With love for you all, your boy. Sgt. Norval W. Pritchard, A. A. R. D. Medical Unit 20, Over Seas Casuals, France. November 16 1918. Dear Mother: The great war that has caused so much destruction, is finally won. What it takes to finish will not be so hard, though it will require a great deal of patience, for I think the most of us are anxious to get back to the United States. I have been over some of the terri tory destroyed by the shell fire. You would not think it could be so bad unti! you have seen it. I just received your's and Elsie's letters of October 7th and 14th, yes- terday, also two bunches of home paper. I sure was glad to get them, though sorry to hear the Spanish in- fluenza is causing so much sicknesss and death. I have not heard from	Bowersox, J.
